SAMAEL AUN WEOR

The Cosmic Ships

CHAPTER 1: COSMIC SHIPS

It was back in the year 1950 when we spoke for the first time about Flying Discs. In that year we emphatically affirmed that such Flying Discs are really Cosmic Ships crewed by inhabitants of other planets.

In that epoch many laughed at our affirmations, but today events have proved us right. In the United States there exists a scientific department dedicated solely to the investigation of these Cosmic Ships.

The law of accidents also includes these ships, and several have crashed or have violently exploded in the air. The United States has in its possession the remains of some of those ships.

We do not propose in this pamphlet to demonstrate the Reality of Interplanetary Ships, because that reality is already totally demonstrated. We only wish now to expand the information that in the year 1950 we gave to humanity in the first edition of "The Perfect Matrimony".

The Cosmic Ships have their history and their traditions. Truly these Ships were created by Angels, Archangels, Seraphim, etc., who possess a body of flesh and bone. Many cosmic traditions mention Saint Venona and his system of cosmic Navigation.

Saint Venona is an Angel with a body of flesh and bone. Saint Venona was born on the planet Soort, where he devoted himself to

investigating the Law of the Fall. Here, dear reader, is the formulation that Saint Venona himself gave about this Cosmic Law:

"*All things that exist in the world fall toward the bottom, and the bottom, for any part of the Universe, is its nearest Stability, and that Stability is the place or point upon which all the lines of force coming from all directions converge*".

"*The centers of all the suns and of all the Planets of our universe are precisely those points of stability. They are nothing other than the lowest points of those regions of space toward which the forces coming from all the directions of that given part of the universe definitely tend. Also concentrated at these points is the equilibrium that allows the suns and planets to maintain their position*".

On enunciating his principle, Saint Venona said moreover that when things fall in space, wherever it may be, they tend to fall toward one or another sun, toward one or another planet, according to which sun or planet that given part of space, in which the object was falling, belonged, with each sun or planet in that determined sphere constituting the stability or bottom.

Saint Venona, after profound investigations, knew how to employ that cosmic particularity for the locomotion of Cosmic Ships. The Cosmic Ships designed by Saint Venona were based on the Law of the Fall.

The only grave problem was that of the planetary atmospheres; these do not allow the straight fall of objects in space. SAINT VENONA succeeded in resolving that problem easily and constructed marvelous COSMIC SHIPS.

We do not propose in this small pamphlet to explain in depth all the mechanism of those Ships, because besides being too complicated, it would be tedious for the reader. The inspection commission di-

rected by the ARCHANGEL ADOSSIA blessed and approved the works of SAINT VENONA.

The Ships of SAINT VENONA moved with the magnetic force of the Worlds and were very swift. However, the most grave problem arose when the ships approached any planet or sun of space. Difficult maneuvers were then needed to avoid a catastrophe. Few were the human Angels who could handle those ships.

It was very difficult to steer the ships of SAINT VENONA, and each day more and more technicians were needed to pilot said ships. However, the system of SAINT VENONA was a technical revolution in its time, and completely displaced other systems.

After many years of cosmic activity, the system of SAINT VENONA was displaced by the revolutionary system of ARCHANGEL HARITON. This ARCHANGEL is wholly a human being in the most complete sense of the word, and has a body of flesh and bone like any person.

The marvelous works of Mr. HARITON were supervised by a great sage known throughout the cosmos by the name of ADOSSIA. This sage is also a gentleman who has already acquired the grade of ARCHANGEL.

The modern COSMIC SHIPS are based on the works of the ARCHANGEL HARITON. All the technical functionalism of these ships is performed on the basis of CONTINUOUS MOVEMENT.

This is not a text of mechanics, and we are not mechanics either; for that reason we abstain from describing all the mechanics of the COSMIC SHIPS.

Through infinite cosmic space travel millions of COSMIC SHIPS, as numerous as the sands of the sea. The INTERSYSTEM ships are gi-

gantic and carry within their gigantic womb small ships that are used to descend to the worlds.

This is similar to the great ships that carry on board small boats that are used to go ashore. Any mature humanity of the cosmos has full right to receive the COSMIC SHIPS.

Normally the elder brothers help the younger, and when a humanity reaches our age, they receive the visit of other planetary humanities who initiate them in cosmic travel and, besides making a gift to them of some of those Ships, teach them how to construct them.

In the epochs of Atlantis the cosmic ships normally landed at the airports of the city of SAMLIOS. Then the inhabitants of other planets visited the kings and lived with them in their palaces.

When humanity corrupted itself morally, the sister humanities of other planets ceased visiting us.

In this epoch of bankruptcy of all spiritual values, we are going to be helped again by our brothers from other worlds. We need extra help, because we are failed and on the brink of a great cataclysm.

Terrestrial humanity has reached the MAXIMUM of its corruption, and the help of our elder brothers becomes urgent. Already several inhabitants of the Earth have been taken on excursions to other planets of infinite space.

In the Republic of Mexico, two men were taken to Venus; one residing in Jalisco and the other in the capital city of the Country. In the following chapter we will speak about the latter.

We know that in Brazil there exists another gentleman who was taken to Mars. There is no doubt whatever that all of us will be able to visit the other planets of space. We are on the eve of a great cosmic cataclysm, and we will be warned before the great catastrophe.

The sister humanities of other planets will try to save us and will officially enter our principal cities and announce the danger that awaits us. But if we continue with the atomic explosions and the vices and every kind of evils and wars, the catastrophe will then be inevitable.

It is good to know that a group of Tibetan Lamas already have a few of those COSMIC SHIPS. They received them from our brothers of other planets and have them very well guarded in a certain secret place of the Himalayas.

Through the streets of our cities already walk some citizens of other planets; they dress as civilians, and no one recognizes them. They study our languages, customs, and ways, with the purpose of helping us.

We are going to be helped on a grand scale. We urgently need that help, because we are totally failed. Many COSMIC SHIPS now land in the jungle of Brazil, in the South of Argentina, etc., and in some other places where they have secret airports.

Some of those cosmic crewmembers are wont to stay among us. Those who believe that the visiting humanities of other planets intend to destroy us are mistaken. Those who suppose perversity in our visiting brothers are mistaken.

It is clear that they have weapons with which they can paralyze human beings and machines. It is logical that they are invulnerable because they are well armed and protected.

If they wished to dominate this world, they would do so in seconds, because they have special weapons to do so; they could also destroy this planet, blow it to pieces, but truly that is not what they want. They are not destructive; they respect life; they are not the perverse terrestrials.

Our visiting brothers only wish to help us, and each and every one of the inhabitants of the Earth must prepare ourselves to receive them. Currently there live in all the great cities of the World inhabitants of Mars, Venus, Mercury, etc. They study our languages and customs with the purpose of helping us.

The Cosmic Ships land in remote places and sometimes leave some crewmembers from other planets, who, dressed as civilians, walk through the streets of New York, Paris, London, etc., without anyone knowing them, for they are very similar in their appearance to us, although many of them are much more beautiful and perfect.

Absurd are the fantasies of many authors who imagine that the inhabitants of other planets have a form distinct from that of the human being of the Earth. The physical features and forms of the physical body of all the human beings of the cosmos are always similar.

CHAPTER 2: A MEXICAN ON THE PLANET VENUS

We know here in Mexico City a man who was on the Planet Venus. The high honor of having visited him is ours.

On a winter evening we arrived at the door of his house. We had the fortune to be received by him. The family was watching television, but in a very amiable form they turned off the television and left us alone with him in his living room.

He is a very sincere and kindly man; he is not an occultist nor a spiritualist nor anything of the kind; he does not presume to be wise; and in spite of having lived the most extraordinary cosmic adventure, he truly has nothing of pride.

We do not propose in this simple pamphlet to narrate in detail what happened to this man; we only wish to speak in synthesis, and that is all. In the month of August of the year 1953, this man was personally on the Planet Venus. His name is SALVADOR VILLANUEVA MEDINA.

The event occurred when he least expected it. He was driving a rental car with a couple of NORTH AMERICANS heading toward the United States through Mexican territory along the Laredo highway.

He had traveled 484 kilometers when the car broke down. The GRINGOS abandoned the car and went in search of a tow truck to take the car to the nearest town with the purpose of repairing it.

This was the beginning of the adventure. Salvador got under the car to try to repair it; suddenly he heard footsteps on the gravel of the highway, and someone asked him in perfect Spanish what was the matter with the car. Salvador kept silent, and on emerging from the place beneath the car, he found himself facing a strangely dressed man who measured a little more or less 1 meter 20 cm.

The body of said man was of extraordinary perfection; white as ermine, and full of beauty throughout. What most called Salvador's attention was the strange uniform and the mysterious resplendent belt.

The man wore his hair long and used a very special metallic helmet. Really few were the words exchanged between them at that instant. The strange personage took his leave courteously and then entered the mountain.

The most interesting thing came later when Salvador was already sleeping; some strong knocks on the window of his car woke him with a start. Without thinking much about it, Salvador opened the door of his car, and his surprise was enormous on seeing again the same personage accompanied by another who had the same aspect and the same suit. Salvador invited them to enter his car and then tried to help them close the little door, but on extending his right arm over them with that purpose, he felt an electrical current that momentarily paralyzed his arm.

The conversation in the car was marvelous. They told Salvador that they came from the Planet Venus. At first Salvador did not believe them and even became indignant, believing that these gentlemen were mocking him. Salvador even came to affirm that only the planet earth could have inhabitants; he said that he had so learned by the affirmations of the wise men of the earth, etc.

"What makes you think such a thing?" they asked him. "Perhaps the deficient means at your disposal for your calculations? Does it not seem to you too much pretension to believe that you are the only beings who populate the Universe?".

These words already seemed very strange to Salvador, and moreover the color of those faces so white, their expressive eyes, their strange voice, their strange helmets, their mysterious belts, etc., made him think very much.

It would be long to narrate the entire conversation Salvador had with those Venusians; they told him how life was on Venus, how they lived, what they ate, how their cities were, their streets, etc., etc..

They also dispelled his doubts, explaining that they could convert the harmful into the beneficial and artificially form their climate, their environment, etc. Under those conditions, if Venus were UNINHABITABLE, they would make it Habitable, because their scientific advances permit it. But it is clear that VENUS is perfectly habitable.

Dawn was breaking, and the Venusians very kindly invited Salvador to accompany them to the planet Venus. Salvador left the car following these mysterious men, and certainly after a while of walking through the mountain, Salvador stopped before the Majestic Ship.

This was a flattened, majestic, and imposing sphere that rested on three buoys forming a triangle. Salvador says that the whole was impressive and that it gave the impression of being a great fortress.

Salvador entered the ship, the little doors closed, and it departed for the planet Venus. Everything that Salvador saw on Venus was extraordinary. The Venusian civilization is formidable.

On Venus civilization has reached the summit. There money is not needed. Each citizen works two hours daily, and in exchange for that, has the right to everything the human being needs for life: transportation, foods, clothing, vacations, science, etc. Everything belongs to everyone; if someone needs a car, he takes it, uses it, and then leaves it at its parking place. If he is hungry, he eats in any hotel and has nothing to pay, because since he is working, he has the right to everything. If he needs clothing, he asks for it in a store and pays nothing, because since he works, he has the right to clothe himself, etc., etc., etc..

On the planet Venus the cars move with solar energy. The principal foods are extracted from the sea. The orchards are on the rooftops of the houses and buildings. On Venus fish and fruits constitute the basic nourishment. On Venus there is no government, nor fatherlands; the whole planet is the fatherland, and only the sages direct and counsel.

I asked Salvador about the religious question, and the response was that on Venus religions do not exist and that each citizen behaves in the street as if he were in a temple. Each person on Venus considers that the temple is within ourselves.

The sidewalks of the streets in the cities of Venus are not still and are formed by metallic bands that are in movement and save effort for the pedestrians. The roadway – that is, the center of the streets – has metallic ribbons that collect the force of the sun with which the cars move.

On Venus everything is everyone's, and the whole Venusian family is one great family. The children are born in special maternity halls and are educated and raised in collective homes. When a child is born, he is marked on a foot. That mark indicates his origin and fac-

ulties. According to that, that child is educated in the collective home. When he is of legal age, he goes to occupy the place that corresponds to him in society.

Under these conditions the particular family does not exist; everyone on Venus is one single family alone. There is no hunger, no war, no social classes. There only Wisdom and Love reign.

Salvador Villanueva Medina was on Venus living for several days. On that planet he found two French residents; both twin brothers and veterans of the second world war. They too were transported to Venus and then begged and pleaded with the Venusians not to bring them back to the earth; they live happily there.

Salvador returned to planet earth; he was brought back so that he might make known to the inhabitants of the earth that Venus is inhabited.

The PHILIPS laboratories analyzed earth and plants at the place where Salvador located the Cosmic Ship and found very strange molecular and atomic disorder. George Adamski, the North American scientist who met some Venusians in the desert of Nevada, also got in contact with Salvador and gave on this topic a lecture at the Insurgentes theater in Mexico City.

Great German scientists investigated the terrain where Salvador found the Cosmic Ship, and the result of their investigations was the same as that of the PHILIPS firm. A great Scientist came from the palace of the kings of England to investigate the case, and the conclusions are the same as those of the PHILIPS firm.

In these difficult times in which we live, we will be helped by the inhabitants of other planets. It is necessary to learn to communicate telepathically with them. Jesus said: "*Ask and it shall be given to you.*

Knock and it shall be heard". All of us can visit other planets if we know how to ask.

The Gnostics must develop telepathy. The Gnostics must go out to the fields, to the deepest forests, and there, in peace and profound meditation, communicate telepathically with the Venusians or with the Mercurians or Martians, and beg them to take them to Venus, Mars, or Mercury.

In the peace of the mountains, or on the solitary beach, on any day we may have the bliss that Salvador Villanueva Medina had. Each of us can be taken to Venus or other worlds. The system for communicating with these Human Angels is telepathy. The Universal Christian Gnostic Movement has formidable systems for developing telepathy.

Whoever wishes to visit other worlds must not drink, nor smoke, nor have any vice. Our International Gnostic Missionary Joaquín Amortegui was visited by an interplanetary Ship in his retreat at the Summum Supremum Sanctuarium.

The waves of thought of any suppliant travel to the planet Venus in a few seconds, and if we are worthy and deserving, we can receive a response.

On any day, in the solitude of the countryside, we may have the bliss of seeing a Cosmic Ship land near us, and then Mercurians, Martians, etc., may take us. They are true human beings with a body of flesh and bone. Human beings with the soul of an Angel – Human Angels.

CHAPTER 3: THE PLURALIZED I

There exists energy free in its movement, and stagnant energy. The I is a knot that must be untied. The I is stagnant energy. The Universal Spirit of Life is energy free in its movement. The spirit is not the I. The Soul is not the I. The Physical body is not the I.

It is necessary to know that the I is the Satan of which the Bible speaks. The I is the Ahriman of the Persians. The I is a bundle of memories, desires, passions, cravings, fears, etc., etc. There is no such Higher I. Truly our Real Being is above every I. Our REAL BEING is the BEING and nothing more than that: THE BEING.

THE SOUL IS THE BEING. THE SPIRIT IS THE BEING, but the I is not the SOUL NOR THE SPIRIT. THE I IS THE DEVIL, and that is all. The I exists in PLURALIZED form: by this we mean that the I IS A LEGION OF DEVILS.

Just as water is composed of many drops, just as the flame has many sparks, so the I is composed of many small I's.

Each desire is personified by a small I. Each craving is personified by another small I. The seven capital sins are personified by seven I's; one for each capital sin, seven for the seven capital sins.

All the vices, passions, and evils are personified by small I's that, as a whole, constitute the I or REINCARNATING EGO. What REINCARNATES is the I: the I reincarnates to satisfy desires and pay KARMA. The I is the origin of Pain; the I is the origin of all our evils.

When the I is reduced to dust, the only thing that remains within us is the SOUL. Truly the SOUL has the NATURE OF HAPPINESS. THE SOUL IS HAPPINESS. It is absolutely absurd to seek happiness. It comes when the I HAS DIED. As long as the PLURALIZED I exists, there CANNOT be happiness.

There exist in life pleasant hours, joys, but HAPPINESS does not exist while the I is not dissolved.

When the I is reduced to dust, we can REINCARNATE on other more advanced planets to work on our INTIMATE SELF-REALIZATION. The DISSOLUTION OF THE I brings TRUE LIBERTY.

THE VENUSIANS are truly blissful because they have already ANNIHILATED THE I; they HAVE NO I.

THE VENUSIANS do not need money because they have no longing for accumulation; they crave nothing, they have no greed; they content themselves with their daily bread. Such Consciousness is proper to Beings who no longer have an I.

ON VENUS AUTHORITIES are not needed, because there is no violence. Only the I is violent. On VENUS Government is not needed because each citizen knows how to govern himself. When the I has been annihilated, each citizen becomes a Government in himself; then who would still want to Govern?

ON VENUS the particular Family does not exist. All the VENUSIANS are a single family; that is only possible thanks to the fact that they have already annihilated the horrible PLURALIZED I. THE I is that which we call MY family, MY house, my properties, my lust, my desires for resentments, my desires, my passions, my memories, etc., etc., etc..

The I continues in our descendants. The I is the race, the nation, my social class, my money, my family, my heritage, etc., etc., etc. THE I IS THE SUBCONSCIOUS. When the I is ANNIHILATED, THE SUBCONSCIOUS becomes conscious.

We need to ANNIHILATE THE I to make the SUBCONSCIOUS CONSCIOUS. Only by ANNIHILATING THE I will we be able to make the SUBCONSCIOUS CONSCIOUS. When the SUBCONSCIOUS becomes CONSCIOUS, the problem of UNFOLDING has been resolved.

When the SUBCONSCIOUS becomes CONSCIOUS, we no longer need to concern ourselves about UNFOLDING, because while the PHYSICAL BODY sleeps, we live in the internal worlds ABSOLUTELY CONSCIOUS.

As of today humanity is SUBCONSCIOUS at ninety-seven percent and conscious at only three percent. We need to be ONE HUNDRED PERCENT CONSCIOUS. The inhabitants of VENUS are totally one hundred percent conscious. THE HUMANITY OF VENUS annihilated the I.

Truly the I can only be annihilated on the basis of rigorous CREATIVE COMPREHENSION. We need to perform self-direction on the I with the scalpel of SELF-CRITICISM. Instead of criticizing others, we must criticize ourselves. PRACTICAL LIFE is the mirror in which we can see ourselves from HEAD to TOE, just as we are.

When the Mind is in a state of ALERT-PERCEPTION, we can easily discover our defects in coexistence with our neighbor, because they surface spontaneously.

In relation to neighbors, with friends, with our co-workers, with the wife, with the children, with the husband, etc., it is astonishing the way our defects stand out, and if we are alert and vigilant like the

Watchman in time of war, it is only logical that we will then see them as they are.

In COEXISTENCE there is SELF-DISCOVERY when WE ARE in the state of ALERT-PERCEPTION. Every discovered defect must be analyzed intellectually; but the intellect is not everything; the intellect is only a fraction of the mind.

We need to go deeper; we need to explore the subconscious to discover the intimate springs of our defects. Only through very profound Meditation can we truly explore the SUBCONSCIOUS.

When we have INTEGRALLY COMPREHENDED a defect, the ENERGETIC I that personifies it disintegrates. Thus we go on dying from INSTANT to INSTANT.

We need the MYSTICAL DEATH. We need the DEATH OF THE I. Let us remember that each of us carries within a legion of DEVILS. THE I is a LEGION OF DEVILS. Within each person exists the BODY OF DESIRES, and within the BODY OF DESIRES, the PLURALIZED I.

THE PLURALIZED I miserably wastes the ESSENCE – that is, THE RAW MATERIAL, the SUBSTANCE OF THE SOUL. THE I wastes the precious soul Essence in atomic explosions of ANGER, GREED, LUST, PRIDE, SLOTH, GLUTTONY, etc., etc., etc..

When the I has died, the ESSENCE is accumulated, becoming SOUL. We need the I to die; we need that only that which is HAPPINESS – that which we call SOUL – live within us. When the I dies, KARMA ENDS, and in fact we remain FREE.

The INTIMATE contradictions of each person are due to the PLURALIZED I. I AM going to read a newspaper, says the I of the intellectual center; I do not want to read; I want to ride a bicycle, says the I of the MOTOR CENTER.

I want such a woman, I love her, says the Center of Emotions; I do not love her, what I want is money, says the I of the Mental Center: to the devil with these worries; I am going to eat, says the I of digestion... I want to eat a lot... says the I of Greed.

I SWEAR to be faithful to GNOSIS, says the EMOTIONAL I; to the devil with gnosis, the INTELLECTUAL I exclaims furiously; better to obtain money, says the I of Greed; I will affiliate with another school better than gnosis, says the I of Curiosity.

Thus we have no INDIVIDUALITY; we are not INDIVIDUALIZED; we are a LEGION OF DEVILS. When the I is dissolved, only INDIVIDUALITY – that is, the INDIVIDUAL SOUL – will remain within us.

THE VENUSIANS are TRUE SACRED INDIVIDUALS. They have no I. THE VENUSIANS are truly Perfect human beings. We the TERRESTRIALS are INTELLECTUAL ANIMALS; we have no AUTHENTIC INDIVIDUALITY.

Many persons we have seen swear fidelity to Gnosis, swear before the ALTAR, and some time later they enter another school and declare themselves enemies of GNOSIS. This is because they have no INDIVIDUALITY. THE I that at a given moment became enthusiastic about GNOSIS is later displaced by another I that abhors GNOSIS.

The Human Being still cannot have continuity of purpose, because he has no INDIVIDUALITY; he is a LEGION OF DEVILS, and each DEVIL has his own criterion, ideas, opinions, etc., etc. The Human Being is an UNACHIEVED BEING. We still do not possess the BEING. Only the BEING gives us true INDIVIDUALITY.

CHAPTER 4: OPEN LETTER

MOST ILLUSTRIOUS MR. PRESIDENT OF THE UNITED STATES OF NORTH AMERICA. MR. PRIME MINISTER OF THE SOVIET UNION.

Be kind enough to excuse us for not mentioning your corresponding names and surnames, for we do not know in what year this letter may come into your hands, and as is only logical, times change, and we do not know if at that date you are still occupying the First Magistracy of your respective countries.

The purpose of this open letter is to inform you that, in LATIN AMERICA, the CONQUEST OF SPACE has already been achieved. It is only natural that you smile skeptically before such information, possibly considered by you as "INSOLENT".

We fulfill our duty to advise you not to spend more money on COSMIC ROCKETS; that money must be better used. Cosmic rockets are of no use and are a true failure.

Currently there exists in a secret place of SOUTH AMERICA, in the deep heart of the JUNGLE, a SCIENTIFIC SOCIETY with ninety-eight eminent scientists from different European nations. This Society, following the footsteps of the Great Sage GUGLIELMO MARCONI, learned to use with UTMOST MASTERY the powerful SOLAR ENERGY.

Currently said society constructs, under the direction of MARTIAN Sages, marvelous interplanetary ships with which not only have

they studied in depth all your territories, but moreover they have succeeded in traveling to the MOON and to MARS.

It is not superfluous to clarify that the Mentioned Scientific Society has sufficient money to continue its works thanks to the economic support of the MARTIANS. I CLARIFY: It is not strange to us that you should indignantly cast aside this letter, for your pride and skepticism are well known on the Planet Earth.

However, in not many years you will have concrete proofs of our affirmations. The liquid fuel that you use for the cosmic rockets is of no use for interplanetary navigation.

THE COSMIC SHIPS designed by the Martians and constructed by the Sages of the cited Scientific Society, under the Direction of the Martian Sages, are propelled by Solar Energy.

The Scientists of the mentioned Society are eminent Religious men, and there is even a Priest among them, no matter of which Religion. We are absolutely convinced that the conquest of space is absolutely impossible if we exclude RELIGIOSITY.

All the inhabitants of the cosmos are profoundly Religious. All know very well that the DIVINE is latent and immanent in each atom of the infinite. The mentioned SCIENTIFIC SOCIETY has constructed a Great SUBTERRANEAN Laboratory in the heart of the JUNGLE.

Said laboratory has everything that is needed for the investigation. Contact with the Martians was attained on December 16 of the year 1955 at five o'clock in the afternoon.

Five Martian machines flew at that hour over the Jungle, and one landed. Four Martian persons descended, and among them the Martian chief of the expedition. From that time the contact re-

mained established, and the COSMIC SHIPS OF MARS normally land in that region.

The Ninety-eight scientists residing in that deep jungle of South America normally coexist with the Martians, and from them they are learning the science of INTERPLANETARY NAVIGATION.

The mentioned Scientists received from the hands of the Martian Chief Most Illustrious Mr. TAGE a sheet of GOLD with the following inscription:

"LOGA (MARS), UNIVERSAL BROTHER OF IMMENSE SPACE, PAYS HOMAGE AND FRIENDSHIP TO DOGUE (THE EARTH) IN THE VEHEMENT DESIRE TO UNITE ALL BEINGS WHO LIVE IN ONE SINGLE SPIRIT, IN THE INFINITE SPIRIT, FOR ETERNAL GLORY AND PEACE".

We congratulate the Martian Chief Mr. TAGE for his four-word discourse. These four words are "SUNDI, DOGUE, LOGA, which mean: GOD, EARTH, MARS." With this discourse and the sheet of gold, the ALLIANCE between Martians and Terrestrials has been sealed.

We also send our congratulations to MR. MARTINELLI for the beautiful and significant ring given as a gift to MR. TAGE. On OCTOBER 12 OF THE YEAR 1956, at twelve noon, the most important cosmic event of all the centuries, after the coming of Our Lord CHRIST, took place on the face of the Earth.

ONE of the most illustrious Members of the Mentioned Scientific Society, the Most Illustrious Mr. Narciso Genovese, says that at that precise hour the "COLUMBUS EXPEDITION" set out for the Planet Mars. Much we owe in matter to Mr. Narciso Genovese on the mentioned Scientific Expedition to the Planet Mars. If this letter reaches Him, may he receive our congratulations.

Just as it was three ships with which Columbus reached America, so also it was three the COSMIC SHIPS constructed by the TERRESTRIAL SCIENTISTS under the direction of the Martians.

The names of the three COSMIC SHIPS are “LOGA”, “DOGE”, “CUNDI” (MARS, EARTH, ALLIANCE).

The interior of the Ships was adorned with the IMAGE OF THE CHRIST, and the journey was performed with full success. THE CONVOY was formed by three TERRESTRIAL COSMIC SHIPS and six Martian ones that fulfilled the mission of escorting the terrestrial ships.

Nine persons formed the crew of the Terrestrial Ships. Three for each of the three TERRESTRIAL SHIPS. The first Stage of the cosmic flight was the MOON, and it was absolutely proven beyond all doubt that the MOON is a world ALREADY DEAD.

The expeditionaries rested on the Moon and then continued their journey toward MARS. Ten more SHIPS of MARTIAN origin joined the expeditionaries on the Moon. All the inhabitants of the CITY OF TANIO, capital of the Planet Mars, came out to the AIRPORT to give the WELCOME to the inhabitants of the earth.

Five days the Expeditionaries remained on the Planet MARS dedicated to OBSERVATION and to STUDY. Much was what they learned on MARS, and after returning victorious, they continued their studies and investigations in the heart of the South American Jungle.

THE NINETY-EIGHT European scientists dedicated to this kind of investigations and studies under the direction of the Martian Sages wish to share their knowledge with all the inhabitants of the Earth. They want all humanity to participate in INTERPLANETARY NAVIGATION; but RUSSIA and the UNITED STATES, with their ATOMIC experiments and their nuclear explosions, are hindering

us; they are preventing the Members of the AUGUST SCIENTIFIC SOCIETY from making us, all the inhabitants of the Earth, participants in Cosmic Journeys.

THE TWO GREAT WORLD WARS that filled the World with pain, and now the Cold War with all the possibilities of becoming hot and again filling the World with Blood and destruction, are the principal factors that impede cultural exchange with the Martians and cosmic journeys.

No more cosmic rockets are needed; contact with the Martians is already made. Now what is needed to be able to participate in cosmic journeys is the DISSOLUTION OF THE I.

While the I exists, there will be no PEACE; and while there is no PEACE, interplanetary journeys are impossible. At these precise moments in which we live, it is not COSMIC ROCKETS that are needed, but the study of the I and its TOTAL DEATH; thus and only thus will the JOURNEYS TO MARS be possible.

It is impossible to take to MARS ASSASSINS, THIEVES, DRUNKARDS, GLUTTONS, GREEDY ONES, MATERIALISTS, MARXISTS, ENEMIES OF THE ETERNAL, PROSTITUTES, etc., etc..

ON MARS only PEACE reigns, and there even Governments, nationalities, armies, and police are not needed. On Mars there are no DELINQUENTS, and if any were born, he would be considered as sick and would be taken to an isolated Sanatorium.

Think, gentlemen, of what this signifies. Think of a world like that; in a world where the I no longer exists. Imagine for an instant an army of the Earth invading MARS. Comprehend what such horror, such barbarism would signify.

The author of this letter begs you, gentlemen, in the name of Truth, to put an end to the atomic explosions, to end the Cold War, and to initiate an epoch of Universal Religiosity. VERY especially I ask the SOVIET UNION to suspend the public and private diffusion of MATERIALISTIC DIALECTICS, and to intensify the propaganda in favor of RELIGION.

Know, Sir, that all the INHABITANTS OF THE COSMOS render cult to the DIVINITY, and that the conquest of space is impossible without RELIGIOSITY. PLEASE, Gentlemen: I beg you in the name of the inhabitants of the Earth not to harm us further with your wars, hatred of the DIVINITY, Nuclear explosions, etc., etc., etc..

SIGNED IN MEXICO ON THE 29TH DAY OF THE MONTH OF APRIL. YEAR 3 OF AQUARIUS, BY THE FOUNDING PRESIDENT OF THE GNOSTIC MOVEMENT.

SAMAEL AUN WEOR.
